How to submit:

We ask that you only send us disposable copies of your manuscript, which will be recycled in the event they are not found suitable for publication. We regret that we are no longer able to return submitted

manuscript copies, as the process resulted in too many difficulties with the postal service and unnecessary expense for the prospective authors.

All of our rates are quoted in U.S. dollars, and there is a minimum charge of \$35.00 per job. The following rates apply to electronic editing of Microsoft Word documents (using the track changes feature) and hard copy manuscripts. If your document is in a PDF format and you require the editor to mark the electronic file, there will be an additional charge, as the editing process takes much longer to complete with the PDF editing tools available.

Express Proofreading Service

If your book or manuscript is already polished and only needs a final read for minor lapses or typos, we can offer you low rates and a quick turnaround time. We specifically created this service for the author whose manuscript has already been reviewed by another editor or proofreader and is in the final draft stage. This is the service to request if you are about to go to press, upload your file to the Internet, or otherwise distribute it to your readers.

- \$2.25/page (page = 250 words) when marking hard copy (printout)
- \$2.00/page for corrected electronic copy (MS Word file)

Basic Proofreading Service

Our basic service includes proofing for spelling mistakes, typos, punctuation problems, capitalization errors, and awkward grammar. If your manuscript has been peer reviewed, work-shopped by a writers' group, or has gone through several drafts to get it to finally say just what you want, this might be the service for you.

- \$3.25/page (page = 250 words) when marking hard copy (printout)
- \$2.95/page for corrected electronic copy (MS Word file)

Extended Proofreading / Line-by-Line Copy editing Service

This is our most requested service. Extended proofreading / line-by-line copy editing includes everything that comes with our basic service package. In addition, we will help you with the overall structure of your manuscript. Is your writing clear? Does it make sense? Is your word choice appropriate? Are there any redundancies or inconsistencies in the plot or narration? Are your characters or situations believable? During the editing process, we will leave your comments and questions in the margin of the document that address these issues and more.

- \$4.25/page (page = 250 words) when marking hard copy (printout)
- \$3.95/page for corrected electronic copy (MS Word)

Deep Editing / Rewriting Service

If your text needs an extensive rewrite or a more aggressive edit, we can help you overhaul it. (Please note, this service is rarely needed. The line-by-line copy editing service is usually adequate at addressing most issues.)

- \$12.00/page (page = 250 words) when marking hard copy (printout)
- \$10.00/page for corrected electronic copy (MS Word)

eBook Conversion

The inevitable happened May 2011- Amazon.com announced that eBook sales had officially overtaken print book sales. More customers were buying eBooks for their Kindles or other devices than printed paperbacks and hardcovers. Authors now realize that to remain competitive in the marketplace, they need to have eBook versions available for all titles. If you already have a print version of your book, we can help you convert the original Microsoft Word, InDesign, or PDF document to an eBook for publication on the Kindle, Nook, and other popular eReaders.

With the explosion in ePublishing, the book market has been flooded with low-quality, inferior products and shoddy eBook conversions. Most budget conversion services simply use automated conversion software, with little care for how the final eBook looks to the consumer. Unlike such companies, we believe that eBooks deserve the same care and attention we give our print publications. Each eBook is then tested on the very devices that will be used to read it, giving you an eBook that will properly validate. Your eBook will even include a table of contents with click-through links and a copy of your book cover!

eBook Conversion Pricing

The prices listed below are meant as a general guideline. Please Contact Us with the particulars of your project for a free quote.

Books without Interior Illustrations

Your book falls into this category if it does not have any illustrations, graphics, tables, bullet lists, or charts. We charge a flat fee for the conversion.

- \$100.00 up to 15,000 words
- \$150.00 up to 75,000 words
- \$200.00 up to 125,000 words
- \$250.00 for more than 125,000 words

Books with Illustrations

By its very nature, a non-fiction title often takes longer to code and format properly due to the complexity of the text. We offer several conversion pricing levels, based on the features found within the book.

- **Basic Conversion** includes manuscripts without footnotes, bulleted or numbered lists, tables, and charts. The base price does include up to five photographs or illustrations (additional illustrations are \$3 each). \$1.25 per page.
- **Premium Conversion** includes footnotes, bullet-ed or numbered lists, tables, charts, graphics, complex paragraphs (indented quotes, etc.), photographs, and illustrations. Your tables / charts will be inserted as graphics, scanned from your original print publication; any footnotes will be converted to end-notes. \$1.75 per page.

Converting a Book without a Digital File

Don't have a digital copy of your text? No problem! We can take one of your in-print or out-of-print titles and type it into manuscript format before converting it into an e Book. Standard typesetting fees apply. See Typesetting & Book Design for our current rates.
